Dear John:

First of all I would like to thank you, Dino, Bob, and Harry for all your generous help. Thanks ~~for~~^{to} your assistance, we will be able to give our story a really fine pictorial treatment.

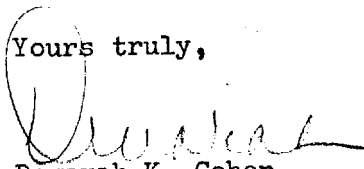

As you may recall, we briefly discussed in our meeting the minor problem of the existence of at least two models of the U-2 and the necessity of taking great care to be accurate in our representation of which model was used at what time. Enclosed is a black and white glossy print of a very nice color transparency of a U-2 that we received from the people at Lockheed. Because it seems to be the one U-2 picture we all like best and might consider as an opener to the piece, I would like to know if this is the same model of U-2 that was flown over Cuba in 1962. I would imagine [Redacted] or Dino could tell us that. Please pass this on to them with my thanks, again, for the help.

STAT

And, of course, I look forward to seeing our other pictures soon.
